

Illuminating ideas

niko

*The aim of art is to represent not the outward
appearance of things, but their inward significance.*

Aristotle

1919

Design and innovation since 1919

From its headquarters in Sint-Niklaas, Niko develops solutions for switching material, home automation, lighting control, access control and energy management. Niko focuses on well thought-out designs and invests heavily in research and development. This results in products of the highest quality made using an environmentally friendly manufacturing process. With this design philosophy, Niko continually strives to introduce more innovative, aesthetically appealing and user-friendly products into the market.
